

B6 SERIES

ELECTRIC MOTORIZED PROJECTOR LIFT

B6 SERIES

ELECTRIC MOTORIZED
PROJECTOR LIFT

Description:

B6 series features a remarkable heavy load capacity up to 2201bs(100kg) which is an ideal solution particularly for large projectors. This range provides with a wide selection of different vertical travels from 1.5M to 10M to fit various multi-purpose applications. Utilized imported electromagnetic braking AC/DC motor, this series. enables extremely quiet operation and is durable, robust and stable. Heavy duty steel construction endures durability in long term use while the white power coated finish is resistant to scratches or fading. This projector lift is compact, convenient to install and operates reliably. When not in use, projector can be hidden into the ceiling. Either way helps save space and remains a neat, comfortable conference environment. Our projector lifts allow full integration via RS232/RS485 control protocols to an almost limitless number of Audio Visual systems which offers the end user complete freedom in their choice of AV interface. All projector lifts are certified with CE, ROHS and compatible with ISO standard.

Features:

- Big heavy load capacity up to 2201bs(100kg). Different model No. with different standard load capacity and we also offer customized solutions
- Full choices for vertical travel from 1.5M to 10M
- Prompt automatic up/down/stop control by remote
- CE Approval, ROHS Certified and ISO standard
- Utilized imported electromagnetic braking AC/DC motor, stable and durable
- Manual & Remote Control with RS232/RS485 interface for central control AMX/Crestron/Extron etc.
- Heavy duty steel frame and ceiling closure panel with anti-scratch powder coating
- Easy Installation, Smooth, Quiet and Robust performance
- Integrated cable management to keep wires and cable organized
- Hardware and universal projector mount enclosed
- Warranted for one year against defects in materials and workmanship
