

# ANCHOR PRO

## VIVID TAB TENSIONED

Both sides of the screen utilize a self-tightening system, it helps to eliminate the “V” shape in the middle of the screen. And this ensures that the screen is as flat and level as a mirror.

**Stylish and durable** – The alloy aluminum outer case is stylish and durable, available in white or black color.

Unique roller design ensures the flattest screen surface large diameter rollers ensure long-term screen integrity providing a consistent flat projection surface.

**Screen selection** – HD100/HD Grey 80/HD130E/HD Grey 150/HD130/HD Grey 70/3D Optical/HD Rear/Dual Vision
